

March 24, 2020

Dear Students, Parents, Families & Friends,

Concerning the current situation with COVID-19, Talcott Mountain Science Center will suspend on-campus programs through April 20, subject to a re-assessment at that time. Our day school, Talcott Mountain Academy has been virtual since Monday, March 16.

Registration remains open for future programs including Talcott's Summer of Science 2020.

We are working on developing virtual options if needed for April Vacation and for weekend programs. Stay tuned to tmasc.org for further details on these.

If you have any questions about programs, please contact Associate Director John Pellino at jpellino@tmasc.org

Thanks for your understanding, please take care of yourselves, and we will provide updates as needed.
